Gantt Diagram — Web Project

Step	Task	Responsible	Status	S1 03/09	S2 10/09	S3 17/09	S4 24/09	S5 01/10	S6 08/10	S7 15/10	S8 22/10	S9 29/10	S10 04/11	S11 12/11	S12 19/11	S13 26/11	S14 03/12	S15 09/12
Concept	Defining the project and entities	Tom & Antonin	Finished															
Concept	Planning fonctionalities	Tom	Finished															
Concept	ER-diagram and table structure	Antonin	Finished															
Database	Complete SQL	Tom	Finished															
Database	Creating fake JSON	Antonin	Finished															
Starting vue,js	Initializing vue.js	Tom	Finished															
Starting vue,js	Creating 3 first pages	Tom	Finished															
Starting vue,js	Use-Case and Grantt diagram	Antonin	Finished															
Complete Frontend	Frontend	Tom & Antonin	To Do															
Complete Frontend	All diagrams for each members	Tom & Antonin	To Do															
Server	Initializing server Node.js and connexion with database	Antonin	To Do															
Server	Developpement of API and tests with Postman	Tom	To Do															
Serveur	Componnents diagram and Classes diagram	Antonin & Tom	To Do															
API Integration	Connexion Frontend-Backend	Tom	To Do															
API Integration	Autentification implementation	Antonin	To Do															
API Integration	Updating UML diagrams	Tom & Antonin	To Do															
Final Step	Adding extra business logic	Tom & Antonin	To Do															
Final Step	Updating Gantt diagram	Tom & Antonin	To Do
